

# DERIDE THE PLACEMENT

## DESCRIPTION:

As the name suggests, this event refers to a 'mock' placement round for all the undergraduate students who would be sitting for campus placements shortly. The best part of this event is that all the UG students from various branches/fields can participate in this event.

## RULES:

- The event will be divided into two parts.
- The first part will be an E-Portfolio making where the participants will be taught to create an E-Portfolio.
- An E-Portfolio is a digital collection of your work and achievements- a record that acts as your brand on the internet. While an E-Portfolio can be used for a variety of purposes, here we will look at it from a professional angle.
- Second round will be a mock interview round. Here you will get familiar with the placement round and interviews that you are going to face in the upcoming time.
- In Round 1 you will be given 3 hours to make your simple portfolio. The main thing you have to take care that you have to cover the main points which should be mention in the content.

### · **Objective of E-Portfolio:**

- 1) A small description of themselves
- 2) Their academic career
- 3) Skills and achievements
- 4) Projects undertaken
- 5) Courses completed
- 6) Contact details

Participants can add on any more subsections to make a PROFESSIONAL, COHERENT website.

- We will select the best portfolios and they will go to the second round i.e. Mock Interview Round.
- In the Second Round, each participant will be given 10 minutes.
- Only individual entries are allowed.

- The top performers from Final Round will be awarded exciting prizes.
