

# **A Head-start to Product/Project and Program Management: Career Opportunities to Projects**

## **DESCRIPTION:**

A panel discussion over the topic that is catching fire in the student community since lockdown. Product management is always a deal-breaker but the only problem students face is how-tos and how to break into the industry of PM. This session will guide me more deeply into how one can break into a PM Internship and how to lay a foundation for it.

## **Basic RULES:**

- This panel discussion will be for 1 hour.
- Participants of all branches/fields can take part in these events.
- Participants will get guidance to get a head start into Projects by real-time PM Project as an assessment.
- Selective Que. will be answered in end.
